Relational databases

MySQL | PostgreSQL | Oracle DB | SQLite

Systemintegration

Webservices | REST | SOAP | XMLRPC | JSONRPC | Messaging | JMS

Security

OAuth2 | OpenID | Penetration Testing | Traffic analysis | Vulnerability assessment

Software Optimization

Performance Tuning

OSS/BSS

Oracle BRM | Custom

CMS

Drupal | Wordpress | Joomla | MODX | Custom

E-Commerce

Magento | OpenCart | Payment gateway integration | Custom

Operating Systems

Linux

Webservers

Nginx | Apache | G-WAN

Application Servers

jBoss / Wildfly

Web frameworks

ChicagoBoss | Node.js | Dynamo

Build tools

Rebar | Mix | Maven | DPKG

Version Control

Git | Mercurial | Subversion | CVS

Application Cache Solutions

Memcached | XCache

Web cache solutions

Varnish

Load Balancers

HAProxy

Experience

TeliaSonera - Senior IPTV Developer (2012-)

- Delivered new functionality and functionality improvements for the IPTV middleware platform.
- Packaged and configured development environments.
